

Forty Years of *Estudios de Economía*

RÓMULO A. CHUMACERO*

Forty years ago, the Department of Economics of the University of Chile launched the first issue of *Estudios de Economía*. In its beginnings, the journal mainly published empirical papers focused on the Chilean economy. Now, it has naturally progressed to become a general purpose journal that intends to publish theoretical and empirical papers on the frontier of the discipline.

After forty years and more than five hundred papers published, *Estudios de Economía* has established itself as a truly international journal. Presently, approximately 35% of the papers submitted for publication to the journal come from academics of European universities or institutions, 20% come from academics of Chilean universities, 30% from academics of other countries in North, Central, and South America, and the remaining 15% from the rest of World.

Estudios de Economía was an early user of the internet as a means to divulge the papers published. In fact, all papers published in the journal are available in electronic format on its web page (<http://estudiosdeeconomia.cl/>). *Estudios de Economía* is also available in most of the relevant academic databases of the field (including Scielo, EBSCO, RePEc, Scopus, etc). Furthermore, the journal was the first Chilean based journal of the field to achieve ISI status.

Estudios de Economía will continue to look for effective and innovative ways to divulge the academic research it publishes. We know that the success of the journal depends on the quality of its papers. Thus, we thank all the anonymous referees for their timely and rigorous evaluations, to the contributors that have favored us in the past, and invite all academics to contribute to the success of *Estudios de Economía* in the future.

Forty uninterrupted years of publishing *Estudios de Economía* also require the dedicated effort of secretaries, executive editors, proof-readers, and editors. Next, follows the list of editors that have contributed with their dedication and that have made what *Estudios de Economía* is today.

James Locke (1973)	Pedro Jeftanovic (1974-1979)
Gunther Held (1974-1981)	Roberto Zahler (1974-1975)
Hugo Trivelli (1975-1977)	Jorge Marshall S. (1978-1982) (1992-1994)
Mario Reyes (1978-1979)	Vittorio Corbo (1980)
Alfonso Morandes (1980-1981)	Sergio Melnick (1981-1984)
Cristián Morán (1981-1982)	Marcelo Figerola (1981-1982)
Tarcisio Castañeda (1982-1984)	Luis Riveros (1983-1985) (1995-1996)
Hernán Cheyre (1983-1984)	Erik Haindl (1983-1985)
Francisco Labbé (1983-1984)	Lucía Pardo (1983-1984)
